

THE WRANGELL SENTINEL

VOL. XVIII. NO. 44

WRANGELL, ALASKA, THURSDAY, OCTOBER 23, 1919

PRICE TEN CENTS

News By Cable Today From All Over The World

Organized Labor Withdraws From the National Industrial Conference — War Time Prohibition Enforcement Act May Become Effective Today.

WASHINGTON—The Supreme Council of Scottish Rite Masons of the Southern jurisdiction in their biennial session elected the following members of the organization in Alaska to honorary 33rd degree and to be knights commander in the court of honor. Honorary 33rd degree, Herbert T. Tripp and Maurice Whittier of Juneau. Knights commander in court of honor, Emile Gastonguay of Thane.

WASHINGTON—The war-time prohibition enforcement act was sent to the President today for his signature and may become effective today.

LONDON—Two Bolshevik torpedoed and boat destroyers were sunk in Kopia Bay in the Gulf of Finland, when they attempted to attack Estonian vessels and British destroyers, the Admiralty announced today. Six survivors from Bolshevik vessels were picked up. The British and Estonians sustained no casualties.

PARIS—Formal ratification of the German peace treaty will probably be accomplished October 30 and a call will be issued that day for the first meeting of the council of the League of Nations to take place within 10 days.

COPENHAGEN—German artillery at Riga fired on British warships at the mouth of the harbor according to the Lettish general staff, and British ships returned the fire, shelling German positions near the city. Riga is being bombarded by heavy German artillery which is using gas shells. Great damage has been done and many civilians have been killed and wounded.

LONDON—Preparations for the trial of the former Emperor of Germany are being made, it was announced in the House of Commons today by Bonar Law, the government leader. A request to the Netherlands government for the surrender of the emperor, he explained, could not be made until all the powers had signed the peace treaty.

SEATTLE—The Jefferson left at 11:30 this morning with Mrs. O. R. Stumpf booked for Wrangell.

WASHINGTON—Following the voting down by the National Industrial conference of Labor's resolution for the recognition of the right of collective bargaining—a resolution which Samuel Gompers, president of the American Federation of Labor, characterized as the last word on the subject—organized labor last night, through its leader, Gompers, announced its withdrawal from the conference. It was by a majority of only one vote that the employers' group defeated the proposal of the unions.

The crew of the molybdenite mine at Shakan came in on the Glenora yesterday, the mine having closed for the winter.

Notice of Public Meeting.

A public meeting of citizens is hereby called to meet at the town hall on tomorrow (Friday) evening at 7 o'clock for the purpose of taking steps for a proper observance of the first anniversary of the signing of the armistice.

J. W. PRITCHETT,
Mayor.

During the past week the matter of observing the first anniversary of the signing of the armistice, (Nov. 11) was brought up in the local lodges. It was proposed that the three lodges go in together for a rousing patriotic celebration. All the lodges were heartily in favor of an observance, but upon consideration of the matter there arose a question as to the propriety of secret orders assuming charge of a celebration of a strictly public nature. Following this decision, six lodge members, who are also representative citizens, reported to the mayor that it was the consensus of opinion in the lodges that the same procedure should be followed for the observance of Armistice Day as the Fourth of July. The Mayor at once issued a call for a public meeting to be held in the town hall tomorrow (Friday) evening.

Captain L. M. Palmer, U. S. A., of New York City, who has spent the past two months hunting in the Cassiar, arrived in Wrangell Sunday night on the Hazel B No. 4. Captain Palmer hunted in the Sheslay and Nahlin districts northwest of Telegraph Creek. The Captain seems to have specialized on Grizzlies, the record of his hunt being as follows: five Grizzlies, two caribou, three sheep, two goat, and one moose.

Ed Kearsley, the returned soldier who was brought to Wrangell last summer from the Towers camp while suffering from shell shock, is in town this week. Mr. Kearsley has not been feeling well lately, and came to Wrangell to place himself under the care of his physician and thus prevent another breakdown.

Nick Peratovich, beach foreman for the North Pacific Trading and Packing company is completing his new home in Bayview. This is one of the finest houses on the West Coast, being a two-story structure, with electric lights, running water and thoroughly modern in every particular.

Joe Baronovich, captain of the Mayflower, is fishing for herring in Wrangell and Petersburg harbors. While seining near the city dock at Petersburg the first of the week, Mr. Baronovich caught \$900 worth of herring in one haul.

A party of local people, which included four ladies, spent Saturday and Sunday on Stikine flats. None of the ladies were Sourdoughs, and the experience of a duck hunt in Alaska was a novel one which they fully appreciated. By wearing trousers and rubber boots, they were able to get out and enjoy themselves as much as the men. The trip was made on the Karen with Capt. Knig Johansen in command.

Paul Keta, Joseph Williams, Billy George and Joseph Johnson, Native boys from Bayview, are in town waiting for a boat south. They are en route to Salem where they will enter the Chemawa Training School.

It is reported that Pete Annisket, mayor of Bayview, is agitating raising the tax on dogs to \$5.00.

Callbreath Says Cassiar Will Boom Next Season

Sid Barrington Will Put a Boat on Dease River—Big Cattle Company Organized to Put Cattle in the Klappan Valley—Another Com- pany Will Bore for Oil.

Last week the Sentinel requested Mr. J. Frank Callbreath of Telegraph Creek to send us some news from that region before the close of navigation for the winter. The last boat of the season which arrived yesterday afternoon brought the following letter:

Telegraph Creek, B. C.
October 16, 1919.

Mr. J. W. Pritchett,
Wrangell, Alaska.

Dear Mr. Pritchett:
While this season has been a hummer it is not a marker to what the next will be.

A company of twenty men are coming with a drill to bore for oil in the Klappan district.

The quartz zone discovered by Asp & Co. when they made their trip into the basin of the Whiting river is bound to be well prospected.

The wonderful showing made by Mr. George Adams the last few weeks of the season with the old Berry Creek hydraulic property will cause other properties to be opened; especially when it becomes known that Sid Barrington intends to put a gasboat on Dease river so that it will be possible to make a trip to the interior and get out again in a few days instead of taking all summer for the trip as it does now.

There is a large cattle company organized in Vancouver to put cattle in the Klappan valley. The cattle will be driven in from Hazelton, but the supplies will go in from here.

So cheer up; Wrangell will again boom as the gateway of the Stikine.

Sincerely,
J. F. CALLBREATH.

Fred Bender Goes to Arizona for Winter

Fred Bender, an old-timer in the Cassiar, will leave on the next boat south for Quartzite, Arizona, where he has a quartz property. Mr. Bender also has mining property on Dease Creek, and states that he will return north in the spring in time to go up the Stikine on the first boat after navigation opens. He expects to simplify the packing problem between his property and Telegraph Creek by putting on a Bon Ton Ford truck to be used out of Telegraph Creek as far as the road will permit. The Government is extending the road, and by the end of next season Mr. Bender will be able to operate his auto truck from Telegraph Creek to Dease Lake.

Ira Day, superintendent of Public Roads of Telegraph Creek, was one of the passengers down on the Hazel B this week. Mr. Day will leave on the Glenora this evening for a trip to the West Coast.

James Cook and son, Gilbert Cook, were in town this week from Bayview on their boat, Age of Reason.

Big Game Hunter Takes Remarkable Photograph

Dr. T. Arbuthnot of Pittsburgh, Pa., Has the Nerve to Use His Camera On a Grizzly Only 30 yds. Away

Dr. T. Arbuthnot, a big game hunter from Pittsburgh, Pa., who has been in the Dease Lake region for the past two months, recently did a most daring stunt as a prelude to killing a grizzly.

The doctor has several hobbies, one of which is photography. His many remarkable outdoor pictures show that he has long since passed out of the amateur class. He took along a real camera on his trip into the Cassiar this season. One day when he had gone out with his camera to get a landscape view he came upon a grizzly not over 30 yards away. He quickly placed his tripod and threw the black covering over his head. Charlie Quast, the Indian guide, was scared half to death, and kept exclaiming: "Shoot! Doctor! Shoot!" The doctor turned around and gently patted the guide on the shoulder, and told him not to get excited, adding that there was more sport in shooting with a camera than with a gun. The bear was moving slowly, and manifesting curiosity in what was taking place. Being apparently undecided just what move to make, the bear paused, looking straight into the camera. At that moment Dr. Arbuthnot squeezed the bulb and secured a plate of great scientific value. He then used his rifle and the bear was soon still enough for another picture. It measured 7 feet 6 inches.

The doctor's picture will rank with that of the famous bear picture taken by F. J. Haynes in 1917, where a mother bear in Yellowstone park is shown suckling a pair of hungry cubs.

Bayview Celebrates Alaska Day Saturday

Alaska Day was fittingly celebrated by the large gathering of townspeople at the schoolhouse. Speeches were made by Peter Annasket, the town mayor, and by Rev. Bromley. The band contributed several selections for the occasion which were very much appreciated. The songs by the school were very well rendered and showed the careful training given by their teacher Miss Marsden. All joined heartily in the community singing. After lunch the crowd adjourned to the hall where the children gave an exhibition of fancy marching, the music for which was furnished by the local band under the direction of their new band leader, Mr. Osborn. The married men then challenged the single men to a game of basketball. The score was 20 to 18 in favor of the married men. The crowd attending the exercises was too large for the halls and several were turned away for lack of seating capacity.

The town is being improved by several thousands of feet of new sidewalk.

Dr. Griffin will move his office from Bayview to Craig for several weeks.

The Banshee, the new boat recently purchased by Mayor Annisket and son, left for Juneau this week and will be gone for several days.

The townspeople were somewhat excited during the week when a report was circulated that liquor was being brought into the town by boats that had been away. The report was without

G. A. Tervo Kills Four Grizzlies at One Time

Canadian Customs Officer Tackles a Pack of Five Grizzlies With Only Eleven Rounds of Ammunition

A new record in game hunting was established this week when G. A. Tervo brought down four grizzlies in as many minutes.

During the past season 25 notable big game hunters from the East visited the Cassiar and were eminently successful, but they will all have to take their hats off to Mr. Tervo, the Canadian Collector of Customs at the Boundary.

Last Saturday evening Mr. Tervo was canoeing on the Stikine when he spied a pack of five grizzlies near the river bank. He had only 11 cartridges in his rifle and none in his belt, but he quietly drew up close to the bank and opened fire. He brought down four of the five grizzlies before exhausting his ammunition.

The shooting attracted the attention of Messrs. Gale and Finley Hunter, two big game hunters who were nearby. They hurried to the scene, but by the time they got there it was so dark that it was difficult to shoot and four wounded grizzlies were something to reckon with. The Hunter brothers opened fire on the mass of seething grizzlies, and after about 50 rounds had been fired the ebullition ceased, and the party advanced and took possession of the carcasses.

It is said that Mr. Tervo, instead of being elated over his prowess, was terribly humiliated over having let the fifth grizzly escape.

Before going into the business of killing grizzlies by the wholesale Mr. Tervo had previously killed five grizzlies this season.

In view of the terrible destruction that follows in the wake of Mr. Tervo when he is out for pastime, one naturally wonders what would have happened if he had ever gotten to the front during the war.

Jimmie Stanley of Bayview was a Wrangell visitor this week. Mr. Stanley, who was one of the summer's successful fishermen on the West Coast, will open up a barber shop in Bayview in the near future. He will also carry a stock of merchandise.

foundation, and on a careful search no liquor or any evidences of it were found. Those circulating such reports will be severely dealt with on their return to Bayview. The Native people are very much incensed over such reports and want it understood that they have a clean town and one in which they all take pride.

The receipts of the money order department of the local postoffice is an evidence of prosperity, the amount received and dispatched in one day being over \$2400.

A number of new houses are in the process of construction and several more are contemplated. These houses will be modern in every respect.

All stores and other business enterprises are in a very prosperous condition. Williams & Stanley are opening up a small store and will do their share of business.

The local band has engaged the services of Mr. Osborn to train them for the season. Mr. Osborn will also train the school band which made such an enviable reputation under the leadership of Mr. C. E. Hibbs, a former teacher of the school.

Biggest Hydraulic Proposition on The Continent

Geo. Adams Has 13 1/2-Mile Leases on Tibet Creek and Will Operate Four Distinct Hydraulic Plants, Each Using Two No. 6 Giants.

Mr. and Mrs. George Adams arrived Sunday on the Hazel B No. 4, and will leave on the City of Seattle for Skagway from which place they will go to Atlin. After a short visit there they will go to Seattle, remaining outside during the winter.

Mr. Adams is operating on Tibet Creek, using two No. 6 Giants. The property is 107 miles northeast of Telegraph Creek.

The natural conditions on this property could scarcely be more favorable for hydraulic operations. The water used has 400 feet head pressure, and the supply is practically unlimited. The Tibet Creek valley affords 300 feet of dumping grounds.

The property consists of 13 one-half mile leases. Mr. Adams is preparing for the operation on this property of four distinct hydraulic plants, each using two No. 6 Giants. These will make this the largest hydraulic proposition on the continent.

Good Reports From Barrington Property

Captain S. C. Barrington arrived Sunday from his mining property on Deloire creek, 100 miles northeast of Telegraph Creek. Captain Barrington took over claims from the Mitchell brothers, and went in with a crew of men a few weeks ago. He has taken in supplies enough to provide for the several men who will remain on the property during the winter. He will return north with a crew of men early next May. The property is placer ground, and will be worked as a hydraulic proposition. Barrington is doing little talking himself, but other mining men who have been on his property are of the opinion that he will make a good clean-up next season.

Alaska Day Observed By School at Craig

The Craig school celebrated Alaska Day with an enjoyable program telling of the purchase of the country and its name from Alyeska, meaning "The Great Land."

Stories of its great glaciers, animals, fisheries, volcanoes and snow-capped mountains were told and were all appreciated by the visitors. The program closed with an original song—"Children of Alaska."

An interesting talk was given on the historical value of the country and its bearing on the Monroe Doctrine.

The merchants of Wrangell have been busy the past week outfitting loggers and trappers. In view of the shortage in many American furs, as well as in certain of the foreign pelts, it is expected that the prices of fur the coming season will be higher than at any time in the history of the fur business.

The Volley Ball club will meet hereafter on Thursday evenings with the Physical Culture club.

NEWS NOTES FROM ALL OVER ALASKA

The girls of Nenana play indoor baseball.

The only passenger vessel of the Alaska Steamship company calling into Skagway this winter will be the Jefferson.

It is said that considerable mining activity is on at present in the vicinity of the Fortymile. At least two hundred people are there engaged in mining.

Thousands of caribou have been crossing Fortymile creek in the vicinity of Jack Wade creek within the past several weeks. They are going northward.

The Farmers' Bank at Fairbanks is winding up its affairs and retiring from business. The bank is not in financial difficulties but is paying all accounts presented.

Prof. Clarence Louis Anderson, a former Nenana boy, has been made a member of the faculty of the University of Washington. He is an instructor in the fisheries department.

Owing to the scarcity of fish in the Interior this season, men who make a business of feeding dogs through the summer have advanced their price from \$4.00 to \$7.00 per month.

Colonel Harry Revell was recently in Ketchikan on his way to make his home at Hyder. Revell has been a prospector, mail carrier and guide on Kenai peninsula for the past 16 years and first came to Alaska in 1896.

LEGAL NOTICES

Bids Wanted

Bids are wanted for building a United States Court House and Jail at Wrangell, Alaska. Plans and specifications may be seen at the office of the Deputy United States Marshal, at Wrangell.

NOTICE TO TAXPAYERS

The members of the City Council will meet in the City Hall as a Board of Equalization on Monday, Oct. 6th and again on Tuesday, Oct. 14th.

The second meetings will be held at the same place on Thursday, Oct. 31st and Saturday, Nov. 1st, 1919.

The above meetings will be called at the hour of 2 o'clock p. m. and the council will remain in session until 4 o'clock p. m. on each of the said dates.

Any person desiring a reduction on the assessment of their property, shall make and file with the Board of Equalization a written application thereof, verified by their oath, showing the facts upon which it is claimed such reduction should be made.

J. E. WORDEN,
City Clerk.

You Must Have Goodrich Boots

WHEN you journey far over rugged trails, away from all sources of supply, and into the freezing lonesomeness of claim, mine or camp, there is one thing you must have—

Boots of proved dependability—boots that will endure no matter what the test; rubber tough enough to withstand the attacks of jagged formations of ice and rock—thick enough to exclude the dampness and cold—yet pliable enough to give lasting comfort.

In Goodrich "Hi-Press" you have this serviceable combination. You will get the toughest rubber ever moulded into a boot, a rubber with the life of steel.

Goodrich "Hi-Press" Footwear will far outwear the ordinary kind.

Lest you be disappointed, look for "The Red Line 'Round the Top."

Roosevelt Memorial Association

In response to a call issued by F. E. Bronson, chairman of the local branch of the Roosevelt Memorial association, a meeting of representative citizens was held at the town hall Monday evening. It was decided that the most effective way to secure the greatest number of subscriptions would be through the circulation of subscription lists. A number of lists were distributed, and by the end of the week every person in Wrangell will, doubtless, have had an opportunity to subscribe. Subscriptions of one penny are as significant as those of larger amounts.

St. Philip's Church

Can a no-good man be made good? The gossips, fortified by corner grocery philosophy say "no." Is the man who has gone wrong bound to stay wrong? Is there any hope for him? Of course, the ship on the rocks can not get off of itself. The Pharisees, specially those of the type who do not go to Church, claim that the man on the rocks is hopeless. Is there any other answer? The answer will be given at St. Philip's Church, Sunday evening, October 26 at 7:30.

The Study of Latin (Communicated)

Being awfully modern with the eye on the dollar mark is the curse of modern school life—Pa talks dollars, and Ma talks about having a good time, and the scholar goes to school with the idea that he is there to learn how to have a good time and to learn how to make money.

This is shattering many of the old ideas, one of which is that education is to build up men who think.

This specially strikes at the study of Latin. What is the use of spending time on something that has been dead for nearly two thousand years? Such a question deserves an answer. What is the answer? The English language is specially rich in synonyms. This is explained by the fact that the early prayer books were in Latin and that underneath each word was the corresponding Anglo-Saxon word, and so there grew up two words, one from the Saxon and one from the Latin, having the same meaning. A knowledge of the Latin gives an insight into the meaning of the Latin synonyms which can be gained in no other way.

The knowledge of the Latin is a key to a proper use of English. Then, again, all the "Romance" languages, French, Spanish and Italian have a foundation in Latin, so much so that a student who is grounded in Latin can learn these languages in a very short space of time.

Then again nothing gives a command of English like translating. The study of English classics is in no sense a substitute and those who would teach otherwise are doing the student a grievous wrong. How much Latin should a student have? Nothing less than a four year course should be considered. Anything less is smattering. The writer of this article is one who, when he was a student, hated Latin with all his strength, but has been convinced by experience that his boyhood ideas were all wrong. His tastes ran toward mathematics and natural science. He understands now how the things he did not like helped him to use the things that he liked.

School Board.

"THE SINS OF THE WHALE"

We rise to a defense of Jonah, says a humorous writer. He was not a bad sort. In fact, he had always been a good citizen and a friend of the poor, but because he balked at going on a political mission to a bum town the political machine hired a gang of pirates to pitch him from the hurricane deck and compel him to swallow a whale—or was it the other way? It was a mean trick and Jonah knew it, and he made it so hot for the whale that the latter spewed him out at Long Beach, in which city, for his own safety, he feigned repentance and delivered the message with which he had been intrusted.

However, ever since that time the sons of the prophet have had it in for the whale, and at last the time has come to get even. Today whale steak is being sold in great quantities at the butcher shops. It is cheap meat and is almost as good as mutton or veal. Take a whale steak half an inch thick, drop it in boiling water for a minute, adding a pinch of soda, then take it out and place it in a hot, greased pan, sear it quickly on both sides, fry it for three minutes, add butter, pepper and salt, and you have a dish fit for a king. Verily the sins of the whales are visited upon their children.

Watson Brings Good News for Coal Dealers

L. T. Watson blew in from the West Coast of Prince of Wales Island this week. He says that before leaving the West Coast he consulted with the Indian doctors regarding the winter's weather and they predict that the coldest, stormiest winter in years is before us. This must be cheerful news for our local coal barons.

Physician and Surgeon

Office in Wrangell Hotel

Residence: B. Y. Grant bungalow

Harry Gartley was a business visitor to Ketchikan this week.

The City Plumbing shop formerly owned by L. T. Watson has been sold to Harry Ferguson.

The gas-boat Loomis, in charge of Captain Kush from Kake, is in port this week.

Mr. and Mrs. George Demmert were in Wrangell a few days ago en route home to Bayview from Juneau where they had been visiting friends and relatives for a month.

Dr. Griffin returned home on the Glenora yesterday from the West Coast.

Mayor John McCollum of Calder is a visitor to Wrangell this week.

John G. Grant left on the Marguerite Monday for Ketchikan.

FOUND—A package of dress braid. Owner may recover at Sentinel office.

Have your watch repaired at George Cowan's, in the Uhler Block.

FOR SALE—Baby buggy. Apply to Mrs. Marcus Wigg. 10-23

The cannery tender, Homer, belonging to the Marathon Fishing and Packing company, was destroyed by fire at Security Bay last Friday, according to a wreck report filed in the local customs house on Monday by Superintendent Spenser.

The Homer was loading fish at Security Bay and went aground with the falling tide. When the tide came in the boat started to fill and the crew were engaged in bailing the water out, in an endeavor to keep the boat from swamping, when they heard an explosion in the engine room, and before they could do anything to save the boat she was a mass of flames.

The Homer was burned to the water's edge. It is not known as yet whether the engine can be salvaged or not. Mr. Spenser estimates the loss at \$15,000. The Homer was 65 feet in length and one of the larger cannery tenders of this section.—Petersburg Report.

Quality of Courage.
 Cowardice in any form prevails only in instances where the individual is unaccompanied by a being possessing stronger forces. In the company of one or more courageous fellow beings the most fearful man not only becomes fearless but will exhibit courage.—Exchange.

SILK AND BIG GUN FIRING

Probability That Chemically Treated Cotton Cloth Will Take Place of the More Expensive Material.

Chemically treated cotton cloth, as a substitute for silk, is being tested out by the ordnance department. If found practicable for ordnance uses the discovery will effect the double result of meeting a serious shortage in silk and of bringing about a money saving in the ordnance program estimated at between \$25,000,000 and \$35,000,000.

At present millions of yards of silk are required in making the bags which contain the large powder charges used in the firing of heavy artillery.

Heretofore silk has been depended upon for these bags for the reason that no other cloth material has been found that would meet the peculiar conditions required. It is essential that not a particle of the bag container shall remain after the gun is fired. Otherwise a smoldering piece of the fabric might cause a premature explosion when a new charge was inserted.—Chemical and Metallurgical Engineering.

RALEIGH'S TOMB NOT KNOWN

Considerable Uncertainty as to Where Body of Great Englishman Was Finally Laid.

English newspapers have been engaged in a controversy as to the location of the burial place of Sir Walter Raleigh in connection with the celebration of the three hundredth anniversary of his birth. Biographers of Raleigh supposed that, after his execution, the body was buried in the chancel of St. Margaret's.

The London Times, however, suggests that his body was placed there for a short time only, and that Raleigh really was buried at Beddington, in Surrey, where the widow desired that he should rest. Raleigh's head was embalmed and cherished by his widow in a "red leathern bag" to the day of her death. The head was afterward interred in the church at West Horsley, in Surrey.

UTILIZING WASTE.

Two striking illustrations of the manner in which large industries are learning to utilize waste materials are to be found in the activities of a large beet-sugar concern. The beet pulp which formerly was thrown away is now made into an excellent cattle food, the net receipts from which in the last year were sufficient to pay the dividend on the preferred stock of the company.

At a cost of \$123,000 a plant has been erected which is to extract potash, ammonia, etc., from the water heretofore allowed to flow into the ocean as waste. It is expected the plant will pay for itself the first year.

HER SACRIFICE.

"Sistah Maudie Wabbles am puffin' and blowin' round dat she has done give her husband to he'p win the war."

"Husband—huh?" snorted old Aunt Miasma. "Wait twell she gives a son, a brudder or somebody she keers suppin' about."—Kansas City Star.

MET HIS MATCH.

"What is the matter with Arizona Bill, the gunman?"

"Arizon' got a job in the movies."

"Well?"

"He has just had a set-to with a movie director and the poor fellow's spirit is broken."—Birmingham Age-Herald.

LONG FOOD.

"H-m-m," remarked the facetious feller, musingly, as he began to explore his noonday meal, "there is no food shortage here." And to prove he was right he pulled out an unabridged piece of spaghetti a foot long and waved it aloft in triumph.

THE CLASSIFICATION.

"Did you see where in New York they are going to have an aviation section of the police force?"

"I suppose its personnel will be composed of the fly cops."

ONE PLACE.

She—Do you know of any state in the Union where women have the upperhand without the ballot?

He—Oh, yes. The married state.

Local Native People Celebrate Alaska Day

Alaska Day was observed by the Natives of Wrangell at St. Philip's Gymnasium last Saturday evening under the direction of the Government School. The hall was crowded and the affair was a splendid success. Following a half hour's community singing by Mrs. W. W. McLaughlin, an enjoyable program was given. The musical numbers were interspersed by interesting talks by Chester Worthington and Rev. Corser. Mrs. William Tamaree read an article written by herself and published in the October issue of The Home Mission Monthly.

After a talk by the teacher, plans were made to form a Physical Culture club for the Natives, with Mr. G. C. Mitchell as instructor. The club will meet on Saturday nights at the Gymnasium. The first hour will be devoted to instruction in singing by Mrs. W. W. McLaughlin. Following the physical exercises it is planned to have a general social time for the rest of the evening.

A number of Bayview boys who are in town favored the gathering with several selections on stringed instruments, and a number of choruses. The boys sang and played splendidly and their music was a treat to all who heard them.

Refreshments were served by the school girls.

William Lewis, who has been in Seattle on a business trip was a home bound passenger on the City of Seattle.

With lots of money in his pocket he sought a wife in Alaska, wanted one, was willing to be kind to her and give her all the luxuries in the world, yet he couldn't find one in Alaska—or so he says. The following, taken from a New York paper, tells the sad story:

Christian Nelson, who came to this country a poor Danish sailor seven and a half years ago, sailed for Copenhagen yesterday on the liner United States worth \$750,000.

While he was in Baltimore he rescued a man who fell off a fishing boat. The man was a wealthy real estate operator, and gave Nelson \$1,000 and the advice to go West. Nelson went to San Francisco, and from there to Alaska, where he became rich.

There being few women in Alaska, he placed an advertisement in a Copenhagen newspaper for a wife. He received a reply from Miss Julia Lober of that Danish city, with her photograph, and is on his way there to marry her.

He said she does not know about his wealth. He carried in his pocket a \$2,000 engagement ring. Nelson said he intended bringing his bride to New York to live.

Married This Afternoon

Alfred W. Willard of Petersburg and Mrs. Lucy A. Willard of Hyder were married this afternoon by Judge Thomas while the City of Seattle was in port. They will reside at Petersburg.

The new motion picture show being operated by William Lewis gave its first show Sunday night.

Mr. and Mrs. Fred Lewis and baby arrived from Seattle on the City of Seattle this afternoon.

The annual election of officers of Wrangell chapter, Red Cross, was held in the town hall last evening. The following officers were elected:

Charles Benjamin, Chairman.
 Mrs. George H. Barnes, vice-chairman.

Mrs. W. W. McLaughlin, Secretary.

Donald Sinclair, Treasurer.

The executive committee which has served the past year was re-elected.

Three of the tenders of the Petersburg Packing Corporation cannery left for the south last Friday. The Laddie is in charge of Gabe Sather and K. O. Knuteson, the Eunice, and the City of Blaine. The Laddie will be put on the ways and will have a new bottom built, while the Eunice will have a new keel put in and other work done. The City of Blaine will operate for an Anacortes fish concern this winter.—Petersburg Report.

What Do You Think of That?

There is an aspect of spider and fly relation which fabulists and naturalists alike have overlooked. An observer has brought the microscope to bear on many house flies and finds that the parasite upon that hateful insect is often an immature spider. Too weak yet to spin its web it makes the fly its winged prey, and courses from place to place at the will of its captive; either until Pegasus perishes naturally or presumably until the rider has grown up and is able to make a meal of his charger.

Magazine Subscription Agency

Send me your magazine subscriptions either new or renewals. In every instance you can be assured of the lowest possible price on any magazine you wish, whether ordered singly or in clubs.

Some special club offers:

American for one year \$2.00.
 American for two years \$3.00.
 American with Woman's Home Companion to one address, \$3.00.
 Boys' Life with McCall's or Today's Housewife, \$1.95.

Delineator for one year, \$2.00.
 Delineator for two years, \$3.00.
 Delineator with Everybody's to one address, \$3.00.

Everybody's for two years, \$3.00.
 Modern Priscilla with Pictorial Review, \$2.75.

Modern Priscilla for two years, \$2.00.

Pictorial Review with Etude, \$3.00.

Review of Reviews with Boy's Life and Modern Priscilla, \$5.10.

Woman's Home Companion, one year, \$2.00.

Woman's Home Companion, two years, \$3.00.

If the clubbing offers are not what you are looking for, I will combine what you do want and always at the lowest prices which can be obtained. Each magazine subscription will be forwarded to the publishers on the day the order is received.
